3.	Statement authorised by: LGB/DC	9. Provision Catch-up Premium allocation: £16, 600			
4.	Publish date: 14.12.2020	10. Initial allocation received (Oct 2020): £4, 200			
5.	Review date: 15.7.2021	March 2021 - £5, 600; June 2021 - £7, 000			

Covid-19 significantly affect the lives of those in our school community. Many pupils have not been in school since March 2020 with 35% of pupils attending during lockdown between March and July (this number increased from 17% to 35% when restrictions started to lift in June 2020). In addition to this, since school has reopened, many pupils and staff have missed significant amounts of school due to self-isolation. During the autumn term 3 class bubbles closed and with 4 members of staff testing positive and 4 pupils; it is not thought any of these cases were linked. Throughout the pandemic, Burnley has been an area of significantly higher Covid-19 cases and as a result of this, subject to tighter restrictions including Tier Three. During closure and periods of individual and bubble self-isolation, home learning is provided via our learning platforms of Tapestry (EYFS/YI) and Google Classrooms (Years 2-6) Learning packs (paper copies) are available from our office for some families when requested. A further lockdown (January – March 2021) closure resulted in a return to Remote Learning through Tapestry and Google Classroom with provision for children of critical workers and vulnerable children in school.

## 2. Impact of school closure on our pupils

Covid-19 continues to have a significant negative impact on our children's education, emotional well-being and readiness to learn including:

- Increased emotional well-being concerns related to lockdown isolation and bereavements
- Increased evidence of regression, separation anxiety, attachment issues arising, poor behaviour and self-regulation
- Reduction in activity levels with children accessing fewer out of school activities including sport, swimming, dance; this has resulted in a decline in physical health.
- Knowledge gaps across the curriculum with a wide range of varying experiences in accessing the remote learning planned from March July
- Weakening of basic skills in Reading and Phonics, Writing, Speaking and Listening, and Maths
- Wide-ranging effects of increased anxiety impacting on: attendance; concentration levels; independent self-help skills, resilience, tolerance and social skills
- Lack of routines and structures resulting in children struggling to maintain attention, concentration etc. This has had an impact on behaviour incidents across school.
- External factors impacting on families eg furlough, unemployment, financial concerns, domestic abuse, online safety concerns

Teaching and whole-school strategies		
Action	Projected spending	
I. Development of Recovery Curriculum to support all children to be ready to learn and address any difficulties	£500 (including release time for	
arising from isolation and lockdown	designated senior lead)	

2	2. MyOn (YR-Y6) and Accelerated Reader (Y2-Y6) to support reading at home during periods of isolation,	and $f$ 1,000 additional to core funding	
	to foster the love for reading.	allocated	
3	B. Development of use of Google Classroom including release time for Curriculum Development senior l	ead £500 release time and resources to	
	(AN) and Remote Learning lead (JR)	support GC	
4	4. Whole school curriculum redesign including time allocated for all senior leaders throughout the year	and £1,000	
	additional resources to be deployed as required		
5	5. Development of use of marking and feedback as well as additional assessment tools	£200	
Total spending: £3,200
